Smart editor for real time editing of real time projects like Football, Cricket and so on. Fast work-flow with up to 4K@60fps video and up to 1200fps for high quality slow-motion video. Edius is the professional editor for creating professional videos. Very easy to handle, we mean it's simple and intuitive. Features include but not limited to multi-track and audio mixing, picture in picture, multiple camera support, automatic audio sync, chroma keying, smart backup, smart scene layouts, smart clip dimension adjustment, smart inspector, smart editing tools and so on. With Edius the possibilities to put together professional videos are endless. With the new EDIUS DAW (Digital Audio Workstation) a whole new way to edit, record, mix and produce professional sound, vision and sound projects is now possible. The DAW provides all the tools you will need for easy, fast and simple professional-standard video production. WTFISSUES.COM EDIUS 2.8 REVIEW Vistitle 2.8 is the latest version of the VisTitle software, an easy to use video production software suite, providing you the latest features to easily edit, record and create professional looking videos. Vistitle 2.8 makes using your local computer faster and more efficient than ever before. Its smart Video & Audio Inspector enhances editing and troubleshooting by providing a full and real time preview of your video and audio files. The Inspector panel is always on top and supports multiple camera and audio connections. Vistitle 2.8 adds an extra degree of control, from 1-track to 4k H.264, 4k H.265, ProRes or MOV, and YUY2 at the end of the day. 24 Bit UYVY and more will be available for 4K Video Editing and Creating Virtual Reality Video, this is the first application on the market with full support for this format
